

**JOB POSTING FOR
LGL LIMITED, ENVIRONMENTAL RESEARCH ASSOCIATES
ST. JOHN'S, NEWFOUNDLAND**

INTERMEDIATE/SENIOR ORNITHOLOGIST

LGL is accepting applications for a career-oriented, intermediate- or senior-level ornithologist in our St. John's office. We conduct research and environmental assessments for a wide variety of clients in Canada, the U.S.A., and beyond. The successful candidate will work as a member of our existing office-based team. This is a full-time position with travel and fieldwork requirements.

Qualifications & Experience: The successful candidate will be able to demonstrate abilities and experience consistent with the following minimum qualifications:

- MSc or PhD in a field related to avian ecology
- a strong background in marine bird ecology
- familiarity with the identification and general distribution and ecology of birds of Atlantic Canada
- familiarity with provincial, regional, and federal regulations concerning impact assessment
- solid working knowledge of statistical software such as R, and an ability to apply univariate and multivariate statistical methods to ecological data
- competent writer with strong word-processing skills
- willing and able to travel for work

The ideal candidate has relevant experience:

- working outdoors in the marine and land environments of Atlantic Canada
- completing avifauna inventory, ecological and behavioural projects
- working on projects involving impact assessment and monitoring
- working with a variety of field and office equipment
- using a variety of software packages
- analyzing and interpreting data
- writing reports and/or publications
- writing research proposals

Salary & Benefits: LGL Limited provides competitive salaries and benefits.

Contact: Send via email a cover letter with career goals and objectives, citizenship/residency status, and a full CV with at least two recent professional references to:
