

# CO-OP OPPORTUNITY

## Terrestrial Biologist Co-op

**Location:** Sidney, BC

**Salary Range:** \$24–\$28 per hour

**Application Deadline:** February 9, 2026 – *Apply early! We review applications continuously.*

### Start Your Career with Purpose

Are you a third- or fourth-year biology student eager to learn new field skills in the real world? LGL Limited is looking for a curious, adaptable, and motivated **Terrestrial Biologist** to join our team and contribute to impactful ecological projects across western Canada. This is a fantastic opportunity to work alongside experienced scientists, gain hands-on field experience, and grow your career in a supportive, science-first environment.

### About LGL Limited

Founded in 1971, LGL Limited is an employee-owned environmental research and consulting firm with a reputation for scientific excellence. We work with government, Indigenous communities, industry, and NGOs to solve complex environmental challenges. Our work spans Canada, the US, and beyond—and we're proud to help shape sustainable solutions through applied ecological science.

### What You'll Do

As a **Terrestrial Biologist**, you'll be part of a collaborative team conducting fieldwork, analyzing data, and supporting environmental assessments. You'll:

- Assist with **field surveys** (local and around BC and AB) and ecological studies focused on wildlife, vegetation, wetlands, and habitat.
- Help manage and analyze **ecological data** to support project goals.
- Support **project logistics**, including planning field trips and coordinating with site contacts.
- **Travel for fieldwork** (trips are typically 7 to 12 days in duration).
- Prioritize **safety and professionalism** in all tasks.

### What You'll Bring

We're looking for someone who's excited to learn, grow, and contribute to meaningful work.

- Minimum of two years of post-secondary education in an environmental field.
- Interest in terrestrial and wetland ecosystems in BC and Alberta.
- Strong communication and organizational skills.
- Willingness to work in remote and/or industrial environments.

## What We Offer

- Mentorship and career development from experienced biologists.
- Safe, inclusive, and respectful workplace where your voice matters.
- Office-based work is on a Monday to Friday schedule, based in **Sidney, British Columbia**.
- Field-based work is variable and will involve significant amounts of travel in western Canada.
- Four-month term position from May 2026 to August 2026 (with potential option to extend).

## Ready to Grow and Learn With Us?

If you're excited to launch your career in applied environmental science and work on projects that matter, we'd love to hear from you. [Submit your resume and cover letter today!](#)
